MEDICAL.

# Fever and Ague,

from which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, indused by the poisonous missm of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingors near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscers and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spicen, the kidneys, and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The bloed leaves the surface, and rushes to the central organs with congestive violence. This is the Catal. But in this effort it fails. Then the Favan follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandous the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of Favan and Aous. Such constitutional disorder will of course undermine the health if it is not removed.

We have labored to find, and have found, an entitote.

## Ayer's Ague Cure,

Ayer's Ague Cure,
which neutralizes this malarious poison in the
blood, and stimulates the liver to expel it from the
body. As it should, so it does cure this afflicting
disorder with perfect certainty. And it does more,
or rather does what is of more service to those subject to this infection. If taken in season it expels
it from the system as it is absorbed, and thus keeps
those who use it free from its attacks; keeps the
system in health although exposed to the disease.
Consequently it not only cures, but protects from,
the great variety of affections which are induced
by this malignant influence, such as Remittent
Fever. Chill Fever, Dumb, or Masked Ague,
Periodical Headache, or Bilious Headache, Bilious
Fevers, Neuralgia, Rheumatism, Gout, Blindness,
Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics,
Colic, Paralysis, and Painful Affections of the
Stomach and Bowels, all of which, when arising
from this cause, will be found to assume more or
less the intermittent type. This "Agus Cura"
removes the cause of these derangements, and cures
the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and
these organs by degrees become habited to do this
their office of their own accord. Hence arises what
we term acchimatation. Time may accomplish the
same end, but often life is not long enough, or is
ascrificed in the attempt, while this "Agus Cura"
reason to believe this is a surer as well as sufer
remedy for the whole class of diseases which are
caused by the miasmatic infection, than any other
which has been discovered; and it has still another
important advantage to the public, which is, that
it is cheap as well as good.

# Ayer's Cherry Pectoral has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

HEALTH OF AMERICAN WOMEN.

Herom the N. V. Donly News [Editorial.]

We desire to call artention to a letter from Dr.
Joshua E. Bridge, o. 1. Health of American Women," in snother column. He treats the subject in an able monner, and his skill and medical judgment may be relied upon.

From the Albuny Ecening Express.

Marshall's Uterine Catholicon has proved to be fully as valuable as it is claimed to be in many severe tests made by medical gentlemen and others.

Dr. Bridge is a regular physician of very fine attainments, a man of great judgment and discrimination, a judicious and highly successful practitioner, in all discases, especially those of women and children.

## THE GREAT WONDER PROFESSOR WOOD'S Hair Restorative.

SAYS THE ST LOUIS (MO.) DEMCCRAT:
Delow we publish a letter to Dr. Wood, of this
city, from a gentleman in Maine which specks
glowingly of the superior merits of his hair tonic.
Such evidence must have its effect, when coming
from so reliable a cource. It certificates are
quarantees or truth, the Dr. needs no enconiums
nor useless puffery from the press:—
Barg, Maine, January 20, 1856.

Gentlemen, Having my attention called a few months since to the highly beneficial effects of your insirrestorative. I was moused to make a pipheation of it upon my own hair, which had become quite groy, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle of which I have used some. I can now certify to the world that the gray or white hair has tourly disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fitty-two, has need it with same effect.
